PROFILE

Results-driven Senior SEO & Web Development Lead with 9+ years of experience leading SEO strategy, technical optimization, and web development for medium-sized and enterprise clients. Proven success improving organic visibility, qualified traffic, lead generation, and website performance through data-driven strategies and technically sound implementations.

Expertise includes technical SEO, website architecture, on-page optimization, internal linking, Core Web Vitals, and multi-platform development. Combines hands-on technical knowledge with strategic leadership, leveraging AI, automation, analytics, and modern SEO workflows to improve efficiency, user experience, conversions, and sustainable organic growth.

EXPERIENCE

SEO & Web Department Lead - Top Floor Marketing 2023 - Present

- Lead SEO and web development strategy, priorities, and execution across multiple websites, aligning organic growth, lead generation, and website performance with business objectives.
- Oversee technical SEO, website architecture, on-page optimization, internal linking, Core Web Vitals, and SEO-focused web development across multiple CMS platforms.
- Manage cross-functional SEO and web projects, establishing scalable workflows, quality standards, and efficient delivery processes.
- Implement AI-assisted and automated workflows for SEO analysis, content optimization, technical audits, reporting, and operational efficiency.

SEO Specialist-Web Designer - Top Floor Marketing 2019-2023

- Designed and developed mobile-first, SEO-friendly websites focused on responsive UX/UI, site performance, and search visibility.
- Managed end-to-end website development, including SEO architecture, on-page optimization, technical implementation, and performance improvements, contributing to ranking gains of up to 20%.
- Analyzed SEO and website performance using analytics and SEO tools to identify issues, prioritize opportunities, and drive continuous optimization.

Web Developer - Digital Media Construction 2016-2019

- Developed responsive, SEO-optimized websites, implementing on-page and technical SEO best practices to improve search visibility, performance, and usability.
- Collaborated with SEO and cross-functional teams on keyword research, competitor analysis, site structure, and optimization initiatives.
- Applied UX/UI, performance, and conversion-focused improvements to enhance user experience, engagement, and overall website effectiveness.
