PROFILE

Results-driven Senior SEO & Web Development Lead with 9+ years of experience defining and executing AI-driven SEO strategies for medium-sized businesses and large clients. Proven track record in increasing organic visibility, qualified traffic, and lead generation through data-driven, technical SEO approaches.

Strong expertise in technical SEO, website architecture, and web development, with experience leading projects, optimizing content and internal linking, and implementing scalable solutions that improve search performance and user engagement.

EXPERIENCE

SEO & Web Department Lead - Top Floor Marketing

2023 - Present

- Lead SEO and web development strategy, driving AI-powered and data-driven growth initiatives aligned with business objectives.
- Design and oversee SEO-optimized, responsive websites, implementing automation and AI-assisted workflows to improve performance, scalability, and search visibility.
- Integrate AI into content optimization, internal linking, and technical SEO processes to enhance efficiency and consistency at scale

SEO Specialist-Web Designer - Top Floor Marketing

2019-2023

- Designed and developed mobile-first, responsive websites aligned with modern UX/UI standards and SEO best practices.
- Led end-to-end website development with a strong focus on SEO-friendly architecture, performance optimization, and search engine compliance, resulting in up to a 20% improvement in search rankings.
- Analyzed SEO performance using advanced web analytics tools, identifying optimization opportunities and driving continuous improvements.

Web Developer - Digital Media Construction

2016-2019

- Implemented on-page SEO best practices within website development to improve search visibility and technical performance.
- Collaborated with cross-functional teams on SEO initiatives, including competitor analysis, keyword research, and optimization strategies.
- Integrated trend-driven UX/UI principles to enhance usability, engagement, and overall website performance.
